W9HHX REACHES WORLD

In the main lobby of the Broadway building is a bulletin board maintained by the Amateur Radio Club. On it are postcards from distant places that have been mailed in by "hams" who have had radio contact with the MSOE facility, W9HHX.

The purpose of the club is to promote interest and good will among amateur radio enthusiasts and to provide facilities for obtaining licenses. The facilities include the modern and well-equipped shack near the student lounge. It is in use almost continuously by club members in their efforts to contact radio hams throughout the world.

One of the major projects every term is the sponsoring of code classes for all those who are interested in getting an amateur operator's license. The club is currently accepting students for classes this quarter.

Officers elected at the October 19 meeting are: President, Karl E. Peterson, RaTelT IV; Vice-president, Charles J. Barrigher, EEp IV; Secretary, Robert H. Ebert, EEe VI; and Treasurer, William M. Berggren, EEp Spec. Meetings are held on the third Friday of every month.
